TOGAF

WHAT IS TOGAF?

The Open Group defines TOGAF as a framework - a detailed method and a set of supporting tools for developing IT and Enterprise Architecture.

There are many architecture frameworks, but TOGAF is unique in containing a method for developing architecture - the TOGAF Architecture Development Method (ADM).

TOGAF is the result of best practice, as gathered by The Open Group's Architecture Forum. Consequently, TOGAF's great strength is that it is non-proprietary and free to use. However, this does mean that architects need to customise and tailor TOGAF to their organisation's specific needs.

ABOUT TOGAF VERSION 9

TOGAF Version 9 ("TOGAF 9" for short) is a detailed method and set of supporting resources for developing an Enterprise Architecture.

Developed and endorsed by the membership of The Open Group's Architecture Forum, TOGAF 9 represents an industry consensus framework and method for Enterprise Architecture that is available for use internally by any organization around the world.

VMWare Bootcamp Training

The VMware vSphere 4.0 Ultimate Bootcamp is taught by top virtualization experts and offers hands-on labs designed to expose the student to advanced virtualization concepts and the VMware vSphere 4.0 product suite. This comprehensive class prepares the student to become a certified professional virtualization expert with the Certified Virtualization Expert 4.0 (CVE 4.0) certification to attest to their knowledge of the material and technology.

Take 5 VMware Training Courses in one Intense Boot Camp!

- Five (5) 10 hour days of intense instruction
- Personal access to the top virtualization experts in the industry
- Each student receives a dedicated server for practice
- 50+ labs to provide full perspective on how to build and maintain virtual environments
- Install, configure, deploy, secure, analyze, consolidate and design virtual networks from A-Z
- Lunch and snacks provided
- Apply third party solutions to simplify processes
- Post mentoring from the best instructions in the industry
- Certified Virtualization Expert certification establishes credentials with employers

Facility Rentals

Training is our trade, so relax and leave your training room requirements to us.

When you need to organize your own technical or management training, but don't have the facilities or the time we can help! We offer fully equipped training rooms of all sizes, with or without hardware; including setup, support and refreshments served throughout the day.

Volume pricing

Our new and improved Personal and Corporate cards allow you or your organization to purchase training by the day; maximizing savings and the number of courses that can be taken.

Corporate and Personal ATM cards allow your organization to prepay and purchase training at a reduced cost with the flexibility to choose when and what courses are taken.

CTE Solutions makes an IMPACT!

CTE SOLUTIONS WINS COMMUNITY LEADERSHIP AWARD

CTE Solutions is proud to be recognized by Microsoft Canada for the 2009 Impact Awards.

This summer, we donated over \$300,000 in free training to help support technology workers in the community who had been laid off as a result of the recession. Our program provided the participants with training and certification in technologies currently in demand in the marketplace - making the students more marketable in a very competitive environment.
